Types of Hoover Allergen Sweeper Bags

By Misty Faucheux, eHow Contributor

Hoover was founded in 1907 and has since grown into one of the leading brands of vacuum cleaners on the market. The company changed hands a few times and was sold to Techtronic Industries in 2006. Hoover has a variety of bag and bagless vacuum cleaners. One advancement in their bagged vacuum cleaners was the release of allergen filtration bags. Check your manual to see which type of bag will fit your vacuum cleaner. *Does this Spark an idea?*
